| Power          | 15 HP    |
| Speed          | 1.5 KM/H |
| Engine         | Kubota   |
| Working radius | 2890 mm  |

### Description

The GG900 is a versatile mini excavator with a Kubota 15 HP engine, movable arm, and expandable tracks. Weighing 900 kg, it offers enhanced reach and stability for more demanding excavation tasks. The expandable tracks provide a wider stance for stability on slopes, then retract for narrow passages. A top choice for professional landscapers, utility installers, and contractors who need adaptability across varied job site conditions without a larger machine.
