Minimum HP	25 hp
Maximum HP	70 HP
Weight	155 kg
Attachment	Cat. 1 three-point linkage, Euro or W quick coupler .
Hydraulic connection / pair	Hydraulic blade adjustment (tractor/loader hydraulics) .

Description

The Boxer SS snow plough is a compact and versatile blade for clearing snow from cycle paths, pavements, car parks and yards. It suits tractors from 25 to 70 hp as well as wheel loaders, for both private and professional use.

The blade is 86 cm high and hydraulically adjustable for efficient snow handling. A replaceable rubber strip protects paved surfaces, and the sprung breakout protection lets the blade give way when it hits an obstacle.

The SS 1800 has a working width of 180 cm and weighs 155 kg.

Standard equipment

- Hydraulically adjustable blade, 86 cm high
- Replaceable rubber scraper strip
- Sprung breakout protection
- Parking stand

Mounting options

- Cat. 1 three-point linkage
- Euro quick coupler
- W quick coupler
