Description

The JAPAN1000J adds joystick controls and two-speed travel to the premium JAPAN1000 platform. At 975 kg with a Kubota 15 HP engine, it delivers fast site-to-site movement and precision digging in one refined package. The two-speed travel system lets operators switch between work speed and transport speed effortlessly. Ideal for professionals who move between job sites frequently and demand both speed and precision in a premium-quality compact excavator.
