| Maximum HP | 70 HP |
| Weight | 210 kg |
| Attachment | Cat. 1 three-point linkage, Euro or W quick coupler . |
| Hydraulic connection / pair | Hydraulic blade adjustment (tractor/loader hydraulics) . |

## Description

The Boxer SS snow plough is a compact and versatile blade for clearing snow from cycle paths, pavements, car parks and yards. It suits tractors from 25 to 70 hp as well as wheel loaders, for both private and professional use.

The blade is 86 cm high and hydraulically adjustable for efficient snow handling. A replaceable rubber strip protects paved surfaces, and the sprung breakout protection lets the blade give way when it hits an obstacle.

The SS 2400 has a working width of 240 cm and weighs 210 kg.

**Standard equipment**

- Hydraulically adjustable blade, 86 cm high
- Replaceable rubber scraper strip
- Sprung breakout protection
- Parking stand

**Mounting options**

- Cat. 1 three-point linkage
- Euro quick coupler
- W quick coupler
