Length	3585 mm
Digging depth	2300 mm
Power	15 HP
Speed	2.5 KM/H
Engine	Kubota D902
Working radius	4050 mm

Description

The GG1700 weighs 1711 kg and features a Kubota 15 HP engine with joystick controls, movable arm, and expandable tracks. It bridges the gap between mini and midi excavators, offering serious digging capability in a still-compact package. Built for professional earthmoving contractors who need real excavation power — deeper reach, stronger breakout force — while maintaining the transportability and maneuverability advantages of a smaller machine class.
