Parameters

Name	Value
Weight	2200 kg
Width	1200 mm
Height	2280 mm
Length	3329 mm
Digging depth	2050 mm
Capacity (m³)	0.06 m³
Engine	Yanmar Engine 3TNV80F

Description

The GT2000J shares the GT2000's specifications — Yanmar 21 HP, 2200 kg, heated cabin with A/C — but adds double-speed travel for faster repositioning across job sites. This makes it ideal for operators who frequently move between digging positions or work on spread-out sites. Designed for professional contractors who value both powerful excavation capability and the efficiency gains of rapid on-site travel between work points.
