Parameters

Name	Value
Torque	55.7 Nm
Generator	12V/55 A
Battery	12V/54 Ah
Turning circle	2400 mm
Max speed forward	13.2 km/h
PTO Power	11 kW
Rear PTO Speed	540 rpm
Mid. PTO Speed	2000 rpm
Front PTO speed	2000 rpm
Fuel Tank volume	23 L
Hydraulic oil tank capacity	15 L
Capacity hydro Pump	28.3 l/min
Hydraulic pump implements	15.1 l/min
Hydraulic pressure	130 bar
Cylinders	3 pcs
Hydraulic connection / pair	2 .
3 point lift capacity	510 kg
Front 3 point lift capacity	325 kg
Length	2699 mm
Height	2070 mm
Wheelbase	147 cm
Engine	3TNM72-DRE
Transmission	Hydrostatic 1 Range
Motor Power	16 KW
Machine Power	22 HP
Engine size	904 cm3
Width	1197 mm

Description

AgroHof.com

This product is the variant SA222V-Q-T-W: cabin, turf tyres, winter package with Front Hitch.

Winter package: additional Front Hitch with pin.

Small but perfectly formed is a term that might have been designed to describe the Yanmar SA222-R (ROPS) tractor. The sub-compact tractor might be small but it crams in features, benefits and innovations at every turn. Compact body Even though it is designed to tackle the duties normally charged to larger tractors, the Yanmar SA222-R (ROPS) compact tractor features a compact body that would not look out of place on a regular garden tractor. In addition to adding to the smooth lines of the machine, this compact body lends the tractor a work-anywhere capability that allows it to work in areas where space is limited. Easy and safe to operate A hydrostatic transmission – with convenient side-by-side pedals for simple forward and reverse operation – provides multiple range options to get the job done regardless of terrain or the implement you’re using. Smooth hydraulic power steering delivers no kickback in the steering wheel for reduced operator fatigue. These features combine to produce a tractor that is easy and above all safe to operate.
