Description

The GG1900T features an impressive 5680 mm max lifting height with a Yuchai 61 HP engine. At 4200 kg with 1900 kg capacity, 0.8 m³ bucket, LED lights, and rear camera, it reaches heights most compact loaders cannot. The articulated hydraulic steering and 4x4 drive ensure stability at full extension. Built for operations requiring extreme reach — high-bay warehouses, grain storage, multi-level construction sites, and agricultural facilities with tall storage systems.
