Parameters

Name	Unit
Weight	650 kg
Working width	3000 mm

Description

STANDARD EQUIPMENT:

• Category II 3-point hitch.
• 720 mm blade height, raised
to 850mm on one side
• 200x12 mm (400 hb) steel hardox
scraper blade with 305mm pitch
• Hydraulically controlled heavy scraper: cylinder
rotating the blade for front or rear operation in
the range of 230 ° and the cylinder controlling
the drawbar tilt in the range of +/- 30 °
• Two support wheels 6.00x9, with
mechanical (smooth) adjustment of
the scraper working height
• Supporting bracket
• Blade overload protection (hydraulic accumulator
on the cylinder changing the blade angle)

OPTIONAL EQUIPMENT: • Other types of mounting
