Length	2130 mm
Transport width	3000 cm

Description

An effective implement for mechanical weed control. Tine harrows are suitable for the cultivation of cereals, corn, beets, oilseed rape, potato, peas, soy, field beans, and other vegetables. Improves soil aeration and water capacity. Reduces nutrient leaching. Easy to use. Prevents/remediates soil crusting. It can be very helpful especially when used on grasslands, in tree nurseries, and on golf courses.
