

Zagroda 8713

7.5 m spring tine harrow with hydraulic folding

Parameters

Name	Unit
Working width	7500 mm
Weight	640 kg
Minimum HP	44 hp
Transport width	3000 cm
Length	2130 mm
Width	7500 mm
Height	1200 mm

Description

An effective implement for mechanical weed control. Tine harrows are suitable for the cultivation of cereals, corn, beets, oilseed rape, potato, peas, soy, field beans, and other vegetables. Improves soil aeration and water capacity. Reduces nutrient leaching. Easy to use. Prevents/remediates soil crusting. It can be very helpful especially when used on grasslands, in tree nurseries, and on golf courses.
