

## **Eta XS (2026) with Altertrimmer 180**

Tool carrier frame with 175 cm alternating mower

Item no.: A1-24388

### **Description**

Working width: 175 cm

Min.24, Max. 40 HP

Recommended tractor weight 1500kg

Oil: 20L/min

540 cardan shaft

Weight: 280kg

The hydraulic brushcutter/edger has a working width of 175 cm and is suitable for cutting hedges and bushes. The simple rotation control of the lever allows for working on both the right and left sides. The innovative reversible frame allows the machine to be mounted on the front or rear of the tractor, using a PTO pump, without the need for a PTO shaft. The cutting head can be extended forward by up to 1.1 metres, providing a larger working area and better accessibility.
