Description

Description:
Used arm stalk crusher
Year of manufacture: 2018
Control with cable levers
Independent hydraulic system
100 cm working width cutting head
Cardan shaft included!
Offer conditions and viewing: The equipment can be viewed and tested at our premises at a pre-arranged time. As it is a used machine, the price refers to the current aesthetic condition, which can be seen in the pictures.
The machine is technically fully operational, however, due to incomplete control, not all of its functions can currently be operated.
It shows signs of regular use (surface paint wear, scratches on the frame, and traces of gravel impact in the crushing chamber). These aesthetic defects do not affect the structural integrity and excellent performance of the machine.
The following equipment/parts/components are missing from the machine:
- Hanging pins
- 4 lever control units missing

New factory machine specifications:
- Working width: 100 cm
- Weight: 300 kg
- Horsepower requirement: 25-30 hp
- Cat. I.-II. 3-point suspension
- Can be operated with 540 rpm PTO drive
- Knives: 20 pairs of articulated Y knives arranged in 2 rows in a spiral shape
- Independent hydraulic system with tank
- Hydraulic tank: 55 L
- Crushing head rotation angle: 175°
- Crushing head horizontal extension: 291 cm
- Crushing head extension vertically upwards: 301 cm
- Control: 4 levers with flexible long cables
- Rear height adjustable support roller
- Rear rubber plate against flying materials
- Foldable for easy transport and storage
- Universal, so it can be mounted on any Cat L and L tractor
- 3 suspension spindle settings
- Equipped with SKF bearings
