Description

The Günter Grossmann TT654-J is a 4x4 wheeled tractor for field work, transport and municipal tasks.

A Yunnei DEF20CCF4 diesel engine delivers 65 hp (48 kW). A dual-stage dry clutch and a 12 + 12 gearbox (TB12F+12R) let you match the speed to the job, and pneumatic brakes make trailer work safer.

The rear PTO (6 splines, Ø35 mm) runs at 540 or 1000 rpm, the rear three-point linkage is category II, and a 3-way hydraulic valve powers additional implements. Standard tyres are 280/85R20 front and 380/85R30 rear (210/95R20 and 320/85R28 optional), and the 62 L fuel tank allows long working days.
