Description

The 5 metre folding mulcher is the ideal choice for anyone who farms large areas and wants to manage crop residues efficiently. It can be particularly useful in arable farming, where the large working width and folding design allow for fast and efficient work. The advantages of this tool include high performance and reliability, ensured by its advanced technology and robust design. Thanks to the folding mechanism, it is easy to transport and store, which is particularly beneficial for farmers working in varied terrain. With this type of mulcher, farmers can save time and energy while ensuring optimal maintenance of their land and preserving soil fertility.
