Description

The Eta M Trimmer 1200 Joystick is a 120 cm arm mulcher for mowing roadsides, ditches, banks, hedges and other hard-to-reach areas. Designed for prolonged use with medium-sized tractors, it mounts on the three-point hitch and has a large working range with a high degree of movement, so it can follow challenging terrain.

Its own hydraulic circuit with oil tank and oil cooler makes it ideal for tractors with limited hydraulic capacity. The arm and head movements are controlled from the cab with a joystick, for precise and comfortable work. Great for specialist landscapers, municipalities, estates and parks.

Standard equipment

- 120 cm mulcher head
- Independent hydraulic system with oil tank and oil cooler
- Joystick control
