Parameters

Name	Value
Weight	55 kg
Dimensions	1010x460x330 mm

Description

The Jansen AS-400K branch saw is compatible with the HMS mulchers and our Jansen THS-180! You can find it in our shop.

The Jansen AS-400K pruning saw easily cuts tough branches up to 80 mm thick in seconds. The Jansen AS-400K pruning saw is smooth running with a very clean cut pattern, making it excellent for pruning shrubs and trees. Important note: Always cut thick branches from the top down to prevent the blades from jamming!

It has 3 carbide-tipped saw blades (72 teeth each) and a diameter of 400 mm. The saw has an effective working width of approx. 900 mm.

The 3 saw blades are driven hydraulically. V-belts distribute power to ensure smooth saw blade operation.

This is ONLY the saw head (incl. hydraulic motor).

It fits our HMS-80 and HMS-100 hydraulic mowers and to our mower bar THS-180. Using the saw with your carrier vehicle requires the corresponding intake.

Required hydraulic connectors on the carrier vehicle: min. 1x double acting with leakage oil line.

Depending on the circumstances and requirements, we recommend an operational speed of approximately 2 to 7 km/h.

Technical specifications:

Carbide-tipped saw blades: qty. 3

Saw blade diameter: Ø 400 mm

Saw drive: hydraulic

Hydraulic flow rate: min. 40 L/min.

Operating pressure: 160 bar

Required hydraulic connection: 1x double acting + leakage oil line

Saw blade drive: V-belt

Saw blade thickness: 3 mm

Saw teeth: 72 teeth per saw blade

Effective cutting width: 900 mm

Branch diameter (max.): 80 mm

Operating speed: 2 - 7 km/h

Installed dimensions: 1010x460x330 mm

Weight: approx. 55 kg

Package dimensions: 108x54x46 cm

Weight incl. packaging: approx. 64 kg
