|---------------|---------|
| Weight        | 305 kg  |
| Cutting width | 1400 mm |

### Description

The ATV mulching mower units offer you great flexibility. You can tow this mulching lawnmower unit, with a quad, ATV, mowing tractor, a narrow-gauge tractor and even your personal vehicle. Thanks to the installed petrol engine, with an impressive 23 HP performance, you can stay independent, and on the move.

The mowing unit is connected to the towing vehicle with a simple ball head coupling.

The cutting height can be simply adjusted using the threaded spindle below the drawbar. For the transport position the screw jack can be used. The 2 cylinder petrol engine drives the mowing unit via 3 V-belts and can be simply started using an electric starter; the 12 volt battery comes as part of the delivery.

The 24 specially hardened 400 g hammer blades cut the clippings to the minimum size. Even very high grass, bushy or straw-like clippings are no problem for this mower! Thanks to the large, stable pneumatic tyres, the mower can also be moved on very uneven surfaces without difficulty.

Technical specifications:

2 cylinder engine, 764 ccm, 23 HP

12 volt starter motor

Drive via 3 V-belts

Total weight (dry): 305 kg

Petrol

Tank capacity: approx. 12 litres

Cutting width: 1400 mm

Cutting blade type: hammer blades

Weight of blades: 400 g

Number of blades: 24

drive shaft Ø: 105 mm

trailing roller Ø: 100 mm

Measurements: 205x198x100 cm (LxWxH)

Measurements of packaging: 183x87x118 cm (LxWxH)

Weight including packaging: 451 kg
