Description

Machines high specialized in the bed forming process for the horticultural sector, which we advise to use in not very stony soil. Bed former series are projected with a front deep tilling rotor fitted with knives and a rear counter rotating rotor, which crumble and shapes the bed. The series include single, double, triple, fixed as well as folding machine available in various working widths (90-600 cm) and suitable from 40 to 400 HP tractors. Effective soil refinement at various working depth, high forwarding speed, high work performance with very damp soil: here some benefits of our Bed formers. Universal 3 point linkage Cat. 2, Single speed gearbox 540 rpm PTO, Front tilling rotor Ø430 mm, Tilling rotor transmission chain in oil bath, Rear crumbling rotor Ø360 mm with high resistance and wearing steel spikes, Rear rotor mounted on parallelogram adjustable in height, Independent hydraulic plant for rear roller management from 0 to 350 rpm, Front dual metal face seals in oil bath on rotors, Removable flanged rotor, Automatic chain tensioner on spring, 4x blades per flange, length 265 mm, Pair of front adjustable lateral discs adjustable in width and height Ø 460 mm, Rear adjustable hood, Working depth adjustable by crank handles, Pair of wearing round rod on side pannels, Cardan shaft with shear bolt torque limiter SB type (1”3/8 Z=6 tractor side yoke)
