Parameters

Name	Unit
Brake system	Mechanical .
Weight	3480 kg
Max tree diameter	30 cm

Description

This is the fully electric variant of the Greentec Cheetah 30/80 series, designed to operate with zero exhaust emissions, making it ideal for use in noise- or emission- restricted zones.

Key Specifications & Features:

Maximum log diameter: 30 cm
Infeed opening: 300 × 580 mm
Feed channel: 300 × 320 mm
Chipper disc: Ø 960 × 58 mm
Anvil knives (stationary knives): 3 pcs
Maximum disc speed: 750 rpm
Throughput capacity: 30-40 m³/h
Drive: 28-55 kW electric motor, 104 / 116 V system
Battery pack: 45 kW with onboard charger (360 V / 32 A connection)

Standard features include: hydraulic cooling system, angled infeed, combined hand & crane feed (hydraulic lift), remote control, easy maintenance access

Advantages:

Zero emissions — suited for operation in environmentally sensitive or restricted zones.
Lower power demand due to angled infeed design - more efficient operation
Enhanced usability: crane feed, hydraulic motion, remote control
Rugged construction with premium steels, wear plates, and accessible design for servicing and replacement of wear parts
