Description

The CINGOLONE is a machine built with a professional conception but also suitable for private users with ambitious demands. The body of the CINGOLONE is the most innovative on the market. It is equipped with a new mechanical system, simple and safe, which provides, together, 2 different advantages: it is expandable and foldable. The CINGOLONE moves in a completely autonomous way. The wagon mounts an engine of the world's most famous manufacturer Honda GP160 4.8 hp, supports a weight of 350 kg, can cope with a maximum gradient of 20% so you can easily go on the banks of rivers or in the woods, has a 4-speed transmission of which 3 forward + 1 reverse, has a mechanical transmission with unlocking and integrated brake. The track measures 90 x 19 x 29 cm. The box has closed dimensions of 90 cm in length, 73 cm in width and 32 cm in height. The box can be placed on the ground and raised with special legs. The CINGOLONE by Ceccato Olindo complies with the EC regulations on safety at work.
