Parameters

Name	Value
Weight	0,41 kg

Description

- Removes grease, oil and other contaminants from metal contact surfaces
- Evaporates quickly and without residue
- Displaces moisture
- Cleans even hard-to-reach areas
- Odor: Solvent-like
- Density: 0.7525 g/cm³ at 20 °C
- Spray head: With spray lance

Spray the parts to be treated! Wait a few seconds in a closed area until the flammable cleaning agent has evaporated! Only then use the contact!

- Cleaning spray for electrical contacts and sensitive electronic components. Removes grease, oil and other contaminants from metal contact surfaces.

When cleaning, make sure that the components are not under voltage!

Allow the propellant to evaporate from the contacts before operating the contacts to avoid sparking! Allow the propellant to evaporate for a few minutes! Avoid sparking!

- Electronic contacts
- Battery terminals
- Ground terminals
- Plug-in connectors, etc.
