Description

Metal-Technik Crocodile MTS

One of the most popular attachments for front loaders.

Durable and solid construction will ensure long and safe use.

The use of high-quality, high-power cylinders, rear wall and very durable teeth will ensure proper compression of the transported material and minimize losses related to material loss.

Designed for the transport of agricultural products such as: maize, manure, etc.

As standard – euroframe mount

Available widths: from 1200 mm and 1400 mm
