Description

Essential EB20 hydraulic concrete breaking head

Reliable high-performance hydraulic concrete piercing head for 2.5-4.5 tonnes mini-excavators. Ideal for quick concrete, asphalt, stone and demolition work.

Characteristics:

- For excavators of 2,5- 4,5 tonnes
- Strong impact energy for efficient demolition work
- For the breaking up of concrete, rock, asphalt and wall
- Straper, abrasive
- Simple maintenance
- Excellent price-value ratio
- Extensive use for construction and utility work

Accessories:

- 2 fractions (chisel head)

Reliable choice for demolition, road construction and landscaping tasks.
