Parameters

Name	Value
Weight	230 kg
Mowing width	1050 mm

Description

The especially robust construction of the mulch mower EFG-105 makes it stand out. It has a special reinforced angular gearbox and is outstanding in its operation.

The flail mower has a mowing width of 103 cm and is driven using a P.T.O, included as part of the delivery.

This mower unit has the most heavy-duty gearbox in its class. Unlike mower units equipped with light Y blades, this mower has high inertia generated by the heavy hammer blades and heavy shaft. This allows our machine to perform better.

The 16 specially hardened, 0.4 kg hammer blades, which are arranged on a double spiral drive shaft, shred clippings to a minimum size. Even very high grass, bushy or straw-like clippings are no problem for this mower!

The mulcher also has a trailing roller and a freewheel gearbox. The cutting height can be set with the top controller and runners mounted on the side. The suspended, galvanised slats at the front of the mower unit prevent stones escaping.

The mower unit is hung using the three point linkage of your tractor (from Cat. I. upwards). Your tractor should have at least 15HP.

Technical specifications:

Mowing width: 1050 mm

Weight: 230 kg

Drive belt: 3 pieces

P.T.O: Included in delivery

Rpm: 540

drive shaft Ø: 110 mm

trailing roller Ø: 105 mm

Packaging: wooden crate

Mounting: three point hitch from Cat. I

Tractor: min. 15 HP

Dimensions of packaging: 123x87x82 cm (LxWxH)

Weight including packing: 251 kg
