Parameters

Name	Value
Weight	255 kg
Width	700 mm
Length	1340 mm
RPM	540 rpm

Description

The especially robust construction of the mulch mower EFG-125 makes it stand out. It has a special reinforced angular gearbox and is outstanding in its operation.

The flail mower has a mowing width of 122 cm and is driven using a P.T.O, included as part of the delivery.

This mower unit has the most heavy-duty gearbox in its class. Unlike mower units equipped with light Y blades, this mower has high inertia generated by the heavy hammer blades and heavy shaft. This allows our machine to perform better. The 20 specially hardened, 0.4 kg hammer blades, arranged in four rows around the drive shaft, shred clippings to a minimum size. Even very high grass, bushy or straw-like clippings are no problem for this mower!

The mulcher also has a trailing roller and a freewheel gearbox. The cutting height can be set with the top controller and runners mounted on the side. The suspended, galvanised slats at the front of the mower unit prevent stones escaping.

The mower unit is hung using the three point linkage of your tractor (from Cat. I. upwards). Your tractor should have at least 15-25HP.

Technical specifications:

Length: 1340 mm

Width: 700 mm

Mowing width: approx. 1200 mm

Weight: approx. 255 kg

Mounting: three point hitch from Cat. I

Tractor: min. 15 HP

Drive belt: 3 pieces

P.T.O: Included in delivery

Rpm: 540

drive shaft Ø: 110 mm

trailing roller Ø: 105 mm

Packaging: wooden crate

Dimensions of packaging: approx. 145x87x81 cm (L x W x H)

Weight including packing: approx. 276 kg
