**Parameters**

Name	Value
Weight	330 kg
Length	1570 mm
RPM	540 rpm
Mowing width	1420 mm

Description

The especially robust construction of the mulch mower EFGC-145 makes it stand out. It has a special reinforced angular gearbox and is outstanding in its operation as a mulch mower, a flail mower, etc.

The flail mower has a mowing width of 142 cm and is driven using a P.T.O, included as part of the delivery.

This mower unit has the most heavy-duty gearbox in its class. Unlike mower units equipped with light Y blades, this mower has high inertia generated by the heavy hammer blades and heavy shaft. This allows our machine to perform better.

The 24 specially hardened, approx. 0.8 kg hammer blades, which are arranged on a double spiral drive shaft, shred clippings to a minimum size. Even very high grass, bushy or straw-like clippings are no problem for this mower!

The mulcher additionally has a trailing roller and a freewheel gearbox.

Due to the open rear bonnet maintenance work or changing hammer blades will be facilitated. Please be informed that the bonnet has to be closed while operating.

The cutting height can be set with the top controller and the runners mounted on the side. The suspended, galvanised slats at the front of the mower unit prevents stones escaping.

The mower unit is hung using the three point linkage of your tractor (from Cat. I. upwards).

Your tractor should have at least 20-30 HP.

Technical specifications:

Length: 1570 mm

Mowing width: 1420 mm

Weight: 330 kg

Tractor: min. 20-30 HP

Drive belt: 3 pieces

P.T.O: Included in delivery

Rpm: 540

drive shaft Ø: 110 mm

trailing roller Ø: 105 mm

Packaging: wooden crate

Mounting: three point hitch from Cat. I

Weight including packing: 348 kg

Dimensions of packaging: 1600x870x800 mm (L x W x H)
