Number of sickle	3 pcs
Minimum HP	22 hp

Description

The Boxer FA XL finishing mower is a heavier version of the normal FA mower. It is extremely suitable for use behind compact and medium sized tractors. By means of the point-like front of the mower it can be placed behind the tractor for a shorter period of time. The mower is equipped with 3 cutting blades and the cutting height is adjustable by adjusting the 4 running wheels. Because the running roller is on the front side, this ensures that the mower does not get stuck in the ground and leave no marks. The grass is also ejected at the rear.
