Parameters

Name	Unit
Width	1340 mm
Wheelbase	1650 cm
Lifting height	4500 mm
Turning cycle	2340 cm
Pallet Fork length	1070 mm
Weight	5330 kg

Description

- Electric forklift
- Lithium battery 410 Ah / 76.8V - long operating time, fast charging
- 3,500 kg lifting capacity - reliable handling of heavy loads
- Triplex mast with 4.5 m lifting height - maximum flexibility
- Side shift + extra hydraulic function - precise and versatile operation
- Robust tires + compact turning radius (2340 mm) - ideal for indoor and outdoor use
- Total weight: 5,330 kg - excellent stability under load

Powered by a modern 76.8V lithium battery, this machine is a great alternative to diesel or gas forklifts. Zero emissions, quiet operation, and low maintenance costs - all built with premium components and a sleek, professional design.
