Parameters

Name	Unit
Working width	1600 mm
Weight	190 kg
Plow width	6 mm
Blade Thickness	100x12 mm

Description

The 160 cm dozer blade / grader is a powerful and reliable agricultural tool, ideal for a variety of soil work and farming activities. The machine's robust construction and high-quality materials ensure long life and efficient operation. The working width of 160 cm allows you to work larger areas efficiently and quickly, while keeping the earthmover easy to handle and manoeuvre. It is ideal for working on both small and large agricultural fields and can be used for soil preparation or even weeding.
