Max tree diameter	5-37 cm
Width, grapple open	1160 mm
Oil flow	140-180 l/min
Hydraulic pressure	350 bar
Weight	1191 kg

Description

The Greentec Forestcutter 370 is a high-performance cutting-and-felling head designed for 14-25-ton excavators. Its lightweight yet extremely strong Hardox construction, oil-bath mainshaft, and maintenance-free driveline ensure long service life and reliable operation. The innovative arm design enables fast material handling and secure gripping of cut timber. Equipped with a high-efficiency piston motor, suction valve, and an electric manifold for independent control of collecting and rotation. Available with multiple grab configurations and optional collector arms.
