Speed	16 KM/H
Working capacity	3.2 ha/h
Cutting height	3-9 cm
Swath width	1.6 cm
Other	Hydraulic lifting
Other	1 single acting valve
Weight	405 kg

Description

DK rotary disc mowers are rear-mounted tractor mowers designed for cutting all types of grass and forage plants, mowing areas alongside roads and for public utility works. This type of mower has high work rates with low-energy consumption and it can be operated under difficult conditions such as: flattened and tangled grass, damp terrain, terrains with molehills, slopes, during moderate rainfall, etc. Designed to work on slopes from -45 up to +45 degrees. A set of V-belts transmits power to gearbox.
