Parameters

Name	Unit
Working width	1050 mm
Minimum HP	15 hp
CAT	1N
RPM	540 rpm
Rotor Diameter	48 mm
Total diameter	231 mm
Number of rotavator blade	4/20 pcs
Working depth	180 mm
Weight	157 kg

Description

Light-weight rotary tillers and are designed for primary and secondary tillage in crop farming, truck farming, fruit growing and viticulture. This type of rotary tiller enables working the soil in close proximity to a plant, without any danger of tractor damaging the branches, leafs or other parts of the plant. These machines are available in two classes: LPF (for easier operating conditions) and SPF (for medium-duty use).
