Parameters

Name	Unit
Capacity (liter)	150 l
Capacity (kg)	200 kg
Attachment	3-point .
CAT	I, II
RPM	540 rpm
Working width	6000-12000 mm

Description

FERTI fertiliser spreaders fall in the category of mounted spreaders and are designed for distribution of dry granular, powdery and crystalline fertilizers, and lime. A spreading disc equipped with six spreading vanes ensures even distribution of inorganic fertilisers, while double regulation controls the desired application rate and allows right or left side dispersal only, or full-width dispersal.
