Blade Thickness	9 mm
CAT	I, II
Minimum HP	45 hp
Working speed	15 km/h
Working capacity	6.2 ha/h
Weight	580 kg
Number of wheels	4 pcs

**Description**

Rotary rakes are designed for raking mowed mass and represent the latest design of machines for this purpose. This type of machine collects only cut grass without unwanted impurities such as dirt and rocks, delivering quality fodder. In addition, using this type of machines prevents tangling and flattening of the swath, making the process of balling much easier.
