Parameters

Name	Value
Power	14 HP
Weight	186 kg
Engine	KM 192 CAMPES
Fuel	Diesel .
Manual engine starting	yes .
Electro engine starting	yes .
Gear and speed ratio	♦ for driving forward: I-1.18; II-2.43; III-3.06;IV-6.40; V-16.02 ♦ for reverse:I-1.46; II-3.74 km/h
Differential	yes .
Wheels	5.00 x 12" .

Description

TWO WHEEL TRACTOR (14 KS) KM 192 CAMPES - electro start, diesel, with differential lock, 2 output shafts, double clutch lights, tyres 5.00-12. FPM 410/FPM 414 two-wheel tractors are universal machines with power outputs of 10 hp or 12.5 hp, designed both for use in agriculture (particularly in market gardening, greenhouses, fruit growing and viticulture), and for a variety of public utility works. Modern manufacturing technology and the robust structure of these machines ensure their durability and high reliability even under the most demanding operating conditions. They are equipped with a gearbox with seven speeds (5 + 2) with the option of differential lock, and with two output shafts, one for driving implements, and the other to power trailer. A large variety of implements can be mounted on these two-wheel tractors. Built-in headlights enable night-time operation.
