Description

The **Giant G1500L X-TRA** is a low-profile, high-stability wheel loader designed for heavy-duty tasks such as moving soil, gravel, or feed. With a **lifting capacity of 1,400 kg** and a **tipping load of 1,485 kg**, it's an ideal machine for agricultural, construction, and municipal operations that demand both power and reliability.

Powered by a quiet and fuel-efficient **Kubota D1105 (Stage V)** engine, the loader features **four powerful Poclain wheel motors** delivering a traction force of 9,200 N. The **hydrostatic 4-wheel drive** and **electronically controlled differential lock** ensure maximum grip and control even on difficult terrain.

Key Features:

Engine: Kubota D1105 (3-cylinder), 25.2 HP (18.5 kW), Stage V

Lifting capacity: 1,400 kg

Tipping load: 1,485 kg

Lifting height: 2,067 mm

Driving speed: Up to 12 km/h

Hydraulic system (drive): 84 l/min (350 bar)

Hydraulic system (work): 42 l/min (170 bar)

Service weight: 1,525 kg

Width: 110 cm

Tyres: 26x12.00-12 AS

Coupling system: GIANT hydraulic quick change

Standard equipment: ROPS/FOPS safety roof, safety doors (L+R), luxury seat with belt, armrest and high backrest, front halogen work light on lifting arm, floating position on lifting cylinders, cyclone filter, oil cooler, electric main switch

Parking brake: Hydraulic multidisk brake, electric control
