Description

The GIANT G2300 X-TRA is designed with increased lifting capacity and a lower lifting height, making it ideal for loading heavy materials such as soil or stone. With a 2,350 kg service weight and a 2,200 kg lifting capacity, it offers outstanding stability. The Kubota V1505 Stage V engine ensures reliable performance and environmentally friendly operation.

Key Features:

Engine: Kubota V1505, 25.2 HP, 4-cylinder

Lifting capacity: 2,200 kg

Tipping load: 1,695 kg

Lifting height: 2,450 mm

Width: 1,080 mm

Travel speed: 0-18 km/h (2-speed)

Hydraulics: 65 l/min driving hydraulics, 40 l/min working hydraulics

Standard equipment: ROPS/FOPS safety roof, hydraulic quick coupler, suspended seat, safety belt, front halogen work light, oil cooler

A robust and versatile machine that delivers exceptional performance for demanding loading tasks.
