Parameters

Name	Unit
Weight	2688 kg
Lifting height	2498 mm
Lifting capacity	2200 Kg

Description

The machine has LMC (Load Moment Control) as standard equipment.

The GIANT G2700E TELE HD is a heavy-duty, fully electric telescopic loader designed for demanding tasks. Equipped with reinforced 10-ton planetary axles and a 16,000 N pulling force, it delivers exceptional load capacity. Its 13.3 kWh LFP battery charges in just 5 hours, while regenerative braking helps extend operating time. The HD version features a wider 115 cm frame, 100% electric front differential lock, and a reinforced chassis.

Key features:

Battery: LFP, 13.3 kWh / 260 Ah / 48V

Electric motors: 7 kW drive, 12 kW for hydraulics

Drive system: Electric 4WD, 16,000 N pulling force, 100% front differential lock

Speed: 3-speed, up to 17 km/h

Hydraulics: 40 l/min (230 bar), simultaneous cylinder operation

Width: 115 cm

Standard equipment: ROPS/FOPS safety roof, mechanically suspended seat, LED working lights, anti-theft system, electric controls, safety locks

Telescopic boom for increased lifting height

The G2700E TELE HD is the ideal choice for environmentally conscious work in demanding conditions – whether in industrial, agricultural, or municipal environments.
