Description

This compact and agile mini shovel represents productivity, comfort, and a long lifespan. The G5000 X-TRA model features a lower front frame and is specifically developed for extremely heavy-duty work and tasks within construction and earthmoving. The G5000 models are designed to operate in small spaces and on rough terrain. The knuckle system, along with the low weight and compact dimensions, allows these machines to be highly maneuverable, enabling precise work.
