Max Pressure	250 mm
Weight	230 kg
Compaction Power	6000 kg/m2
Frequency	50/60 Hz
Max return pressure	7 Bar
Excavator weight	6-7.5 t

Description

The new hydraulic vibrators IP series are planned both for the pile-driving and the compaction, by simply using a different tool. The hydraulic supply of the vibrators IP series takes place through the excavator PTO. It is also possible to use only the vibrating unit for specific needs.
