Tunnel entrance	40x60 cm
Outcoming piece	max 2 cm
Max tree diameter	40 cm

Description

The Greentec Jaguar 40 is a high-performance drum chipper for tractors with 100–200 hp. It handles wood up to 35–40 cm in diameter and weighs approximately 2200 kg. It features an independent hydraulic cooling system, integrated blowing system with Venturi airflow, and a robust 20 mm drum housing. Quick-change knives, Hardox wear plates, and easily accessible service points ensure long service life. The upper infeed roller is powered by heavy-duty, low-maintenance Poclain motors. Optional equipment includes winch, various infeed table configurations, and a fully hydraulic discharge chute.
