Parameters

Name	Unit
Dimensions	1800x730x1450 mm
Feed height	1120 mm
Ejection height	950 mm
Weight	170 kg

Description

This 15 HP garden/wood chipper by Jansen is a powerful and efficient unit to make shredding garden waste and wood cuttings quick and easy. Equipped with a tough 15 HP engine, this chipper offers impressive performance to effortlessly handle even the most challenging jobs. Ideal for woody material with a maximum branch diameter of approx. 8-9 cm (depending on condition and type of wood being shredded). The electric ignition makes the engine extremely easy to start so the chipper is ready for use in no time.

POWERFUL AND EFFICIENT. The core of the chipper is formed by the high-quality cutting mechanism with its built-in second-stage cutter. It is designed to efficiently shred various types of garden waste such as branches, shrubs, twigs and leaves. The second-stage cutter breaks down the material even further to allow optimal composting or use as mulch.

CONVENIENT AND WELL THOUGHT OUT

Powerful 15 HP engine with electric start

Centrifugal clutch

Adjustable counter blade

Strong cutting unit with second-stage cutter vDrawbar for ball hitch

Swivel ejection chute

TECHNICAL DATA:

4 stroke OHV engine, 420 ccm, 15 HP LONCIN G420F

Fuel: regular petrol

Starter: Recoil & electric starter

Centrifugal clutch

Cut material: Ø 80-90 mm (depending on wood condition & type)

Total weight (ready for use): 170 kg

Ejection height: 950 mm

Feed height: 1120 mm

Number of V-belts: 2 belts (864 Li)

Number of rotating blades: 2 blades

Number of chipping knives: 8 knives (second-stage cutter)

Hopper entry measurement: 330x470 mm (LxW)

Dimensions: approx. 180x73x145 cm (LxWxH)

Package dimensions: approx. 113x80x84 cm (LxWxH)

Weight including packaging: approx. 209 kg
