### Parameters

| Name          | Value   |
|---------------|---------|
| Weight        | 60 kg   |
| Working width | 1371 mm |

### Description

This pasture harrow is ideally suited to towing by small and communal tractors, quads, ATV's or ride-on mowers. It has a total width of 137 cm, a length of 135 cm and weighs almost 60 kg.

The harrow is simply attached to the tow bar of the towing vehicle via a ring. Only one net element or both of the supplied net elements can be hooked onto this tension rod, depending on requirements.

Pasture harrows can be used universally in the agriculture and forestry sectors, garden and landscaping sectors, as well as in pasture management.

The pasture harrow is delivered in a wooden crate with the measurements 177 x 70 x 23 cm and a total weight of 80 kg.

Technical specifications:

Working width: 1371 mm
