Description

The Jansen HBG-1500 hydraulic earth drill is the perfect choice for small excavators, wheel loaders, farm loaders or tractors with front loaders. The earth drill can be connected up quickly and easily to various carrier devices. This makes it suitable for a wide range of applications in the fields of gardening and landscaping, forestry, public works and the construction industry. Planting and fence post holes can be bored in no time at all.

We offer a wide assortment of augers ranging from 150 mm to 450 mm – depending on your requirements, the application, job duration and existing carrier device. All our augers for our tractor drill model TBG-100 and TBG-200 are compatible with the Jansen HBG-1500 hydraulic drill. You can drill to a depth of up to 125 cm with each auger.

Applications:

- Fence construction
- Gardening and landscaping
- Digging plant holes
- Installing posts and masts
- Road signs
- Noise protection walls
- Building industry
- Forestry
- and much more
