Description

The Eurotrac HE18-SR is a compact and versatile mini excavator, ideal for a variety of construction and gardening tasks. The machine weighs 1780 kg, has a power of 11.3 kW (16 hp) and a speed of 1.3-3 km/h. The Eurotrac HE18-SR mini excavator is the ideal choice for anyone looking for a compact and versatile machine for construction or gardening work. Highly recommended:

- For small businesses: those working on smaller construction projects who need a reliable and easy-to-use machine.
- For gardeners and landscapers: those who often need to work in tight spaces where larger machines cannot fit.
- For private individuals: those who carry out earthworks on their own property, such as landscaping or small building work.

This machine is ideal for those who want to work efficiently and accurately in a variety of environments.
