Working height (horizontal)	300-2100 mm
Max tree diameter	2 cm
Oil flow	25 l/min
Working speed	1-3 km/h
Weight	50 kg

Description

Mount the new Elkaer Termit 1300 hedge cutter at a big lawn mower – e.g. a Stiga Park/Titan or Husqvarna TD26. – and get rid of unhealthy working positions. It is often seen that hedge cutting causes challenges both for the physics and the machine, but the Elkaer Termit makes it easy as never before. The Termit is very flexible and you can cut both on left and right side of the tool carrier and it easily cuts both vertical, horizontal and tilted lines from the ground level and up to 3,5 meters. The Elkaer Termit 1300 cuts every hedge from thuja to beech and is a must for you who want a perfect result!
