Parameters

Name	Value
Dimensions	1200x750x610 mm

Description

The Jansen HL-3000 rear loader fits a standard rear three-point linkage (Cat. I and up). The hydraulic cylinders have a double action design. Your tractor therefore requires suitable connections (2x dual action). Hoses are included.

The working width of the bucket is approx. 1200 mm, the maximum lift is approx. 3.25 m (depending on the lifting height of the tractor's lower linkage). So you can reach approx. 2.10 m. With this rear loader you can lift max. 350 kg when fully extended.

Technical specifications:

Bucket volume: approx. 500 litres

Bucket dimensions: approx. 1200x750x610 mm

Required hydraulic connection: 2x double-acting

Load and tilt from the tractor

Reach: approx. 2.10 m

Load at max. discharge height: 350 kg

Lift: approx. 3.25 m (depending on tractor lower linkage position)

Mount: Cat. I and up

Euro mount for attaching e.g. bale hugger or grapple bucket

Package dimensions: 2250x1350x830 mm (LxWxH)

Weight incl. packaging: approx. 502 kg
