Parameters

Name	Unit
Hydraulic oil	12 L
Weight	835 kg
Dimensions	4058x2788x1800 mm

Description

The lumber trailer is hydraulically supported.

The loading crane, included as part of delivery, has a swivel range of 180 degrees and a maximum reach of 3.8m. At the maximum jib length of 3.8m, the crane has a lifting capacity of 200kg. At 1.5m the crane can lift 300kg. The crane has a hydraulic grab which can rotate 360 degrees.

The total loading capacity of the lumber trailer is 3000kg.

The hydraulic unit also comes as part of delivery and is powered using a 4-stroke petrol HONDA GX-160 engine.

The trailer can be moved easily using the tow bar. Many of our customers tow the trailer with an ATV, quad or small tractor. These allow flexibility on narrow paths. The trailer is not permitted for transport on public roads.

The forwarding trailer will be completely assembled and filled by us before it is handed over to the customer. This applies exclusively to pick-up on site in 49824 Emlichheim.

Technical specifications:

4-stroke HONDA engine, GX-160

Fuel type: petrol

Starter: Recoil starter

Amount of engine oil: approx. 1 l (10W40 or 15W40)

Hydraulic oil tank capacity: approx. 12 l (HLP46)

Load capacity: max. 3000 kg

Crane swivel range: 180 degrees

Crane reach: max. 3.80 m

Tyres: 22x11x10

Lifting power of crane: 300 kg at a jib length of 1,5 m

Width of grab: 700 mm

Trailer coupling and towing mechanism included

Operating pressure of hydraulic oil: 200 bar

Support: hydraulic, 2-fold

Assembled dimensions: 4058x2788x1800 mm (LxWxH)

Dimensions of packaging: 221x93x113 cm (LxWxH)

Weight: 835 kg without fluids

Weight including packaging: 865 kg
