Description

The HY-TURB L is an innovative irrigation reel designed for efficient and uniform watering of large areas. Thanks to its turbine rewind system, it offers an energy-saving and eco-friendly solution. Available in tube sizes 110/620, 120/500, 125/480, it allows users to choose the best fit for their specific needs. The HY-TURB L's platform is stable and reliable, ensuring long-term use of the irrigation reel. This product is an ideal choice for agricultural producers seeking the most advanced technology for the care of their crops.
